Biography

Mayur Ramgir is an author, technology entrepreneur and transformation strategist. He is the author of Evolve Like a Butterfly and Unbarred Innovation Redefined (Wiley India), the founder of the Zonopact Innovation Lab and a director of the London School of Emerging Technology. Drawing on a career in software and enterprise technology, he speaks on leadership, personal growth, reinvention and the human side of technological change, helping audiences turn inspiration into practical next steps.

Keynote topics

Evolve Like a Butterfly: The Power of Reinvention

A keynote about transformation, resilience and navigating life's transitions.

Takeaways: Why every transformation passes through a "chrysalis" phase, and how to stay in it long enough · How to reinterpret setbacks as information rather than verdicts · A simple framework for planning your next evolution

Great Leaders Are Not Born. They Evolve.

A keynote about leadership development, adaptability and continuous growth.

Takeaways: The behaviors that separate adaptive leaders from merely experienced ones · How to lead change when you do not have all the answers · Three commitments that keep leadership growth going after the event

Leading Humans Through the AI Revolution

A keynote about the human side of technological change.

Takeaways: Where AI changes leadership, and where it does not · How to address employee fears honestly and keep people engaged · Principles for keeping human judgment at the center of AI decisions

Formats

Corporate training · Leadership retreats · Keynote speaking · Executive workshops · Professional development events · Innovation and change leadership sessions

Keynotes run 45–60 minutes. On-site, virtual or hybrid.

Selected books
